

Bundle: Zentyal Courses, ZeCA Certification Voucher and Book (ZEN-PCK-EN01D)

Zentyal Server comes with first-ever native Microsoft Active Directory® implementation on Linux that is easy to use. With Zentyal there is no need to use the command line, as system administrators can manage all network services through an intuitive graphical interface.

Zentyal Server provides an easy Linux alternative to Windows Server®. Thanks to the integration of multiple technologies in a single intuitive tool, you can easily manage all the computer network services, such as network infrastructure, domain and directory, communications, Internet access or security.

Description

This pack includes all Zentyal courses, one ZeCA (Zentyal Certified Associate) certification exam voucher and the printed book "Zentyal for Network Administrators". The theoretical introductions, practical examples, exercises and tips that cover all the functionality of the Zentyal Server allow you to configure and manage a corporate computer network safely and effectively and simultaneously, prepare you for the ZeCA certification exam.

Goals

- Provide the understanding of the Zentyal Server architecture
- Provide practical knowledge on how to configure and manage all network services provided by Zentyal Server
- Provide practical knowledge about the effective and safe maintenance of a network and migration from Windows Server to Zentyal
- Prepare the student for the ZeCA certification exam

Estimated duration

- Courses: 35h
- Exam: 60 minutes

Aimed at
